

# *Transformational Intensive*

*A rapid approach to liberate you from the inner conflicts that interfere with your life's most important interests and relationships to your most significant purposes and endeavors. The approach is as organic as each individual, yet structured to once and for all, identify and delete that which interferes with your most critical pursuits to your everyday internal experience.*

We're talking about the invisible but powerful influences of the conditioned mind that have a pervasive and insidious grip, as if they are hardwired, holding you back from your highest expression and your greatest desires.

Lasting breakthroughs with traditional methods of therapy, counseling and coaching, often involve years of commitment and often are never reached. With the cutting edge technology and insight that Aspen brings to her clientele, it can happen in weeks and months, sometimes days and even hours.

The Transformational Intensive is for the individual truly wanting something different in one or all areas of their life. Those that work with Aspen, come to her, aware that their unconscious mind is impacting their inner and outer experience and are interested in resolving their unwanted patterns and the barriers to their ease and happiness in their work, their relationships and in their life.

Most come to Aspen, having tried numerous methods to resolve their undesirable experiences and are looking for soul based and lasting answers to their life's deepest inquiries and previously unsolvable issues. Others come to Aspen because while they've had success in their lives, they simply want inner joy and peace within.

Aware of the desire that successful and influential people have, to change and move forward rapidly and with ease, Aspen is committed and tenacious in uncovering and identifying the root of the undesirable experiences of your life and taking you into a new experience. Of equal importance she provides you with the tools for a lasting and ongoing experience of who you truly want to be and what you truly want to have in your life.

Aspen brings an immediate calm and ease to her clients. That coupled with her unique insight, razor sharp intuition and ability to see into your world, creates a safe environment for rapid transformation to occur.
